Sample 1: I produced many social graphics for CenterPoint Energy:

In case of flooding, avoid water where a power line might be down and report it to us at 713-207-2222.

**Sample 2:** A selection of tweets from a Twitter chat that CenterPoint Energy co-hosted with Houston Office of Emergency Management and the National Weather Service to mark the start of hurricane season.

We have a company-wide emergency operating plan that is activated when a hurricane is headed for Houston. What's your plan? #HOUhurricane

More than 95% of our electric delivery customers lost power during the peak of Hurricane Ike. That's 2.15 million. #HOUhurricane

If someone in your home depends on electricity for life-sustaining equipment, you need to have a storm plan. <u>#HOUhurricane</u>

ALWAYS stay away from low-hanging or downed power lines. Assume they are energized. Call us at 713-207-2222 to report them. #HOUhurricane

If you suspect a tree in your neighborhood is too close to power lines, call us now to inspect. 713-207-2222. #HOUhurricane

**Sample 3:** One in a series of web video scripts that I conceptualized and wrote to educate Houstonians about severe weather topics.

https://www.youtube.com/watch?v=FNuZhG7WMil&t=

**Sample 4:** In early 2018, CenterPoint Energy crews traveled to Puerto Rico to help restore power after Hurricane Maria destroyed the electric infrastructure on the island. Many residents

sent us photos and messages via our private Facebook inbox, so I turned them into a photo gallery:
